Thank you Richard.

I hemmed and hawed over adding the other missing sites to the letter...My thinking was that the letter containing the remainder of the comments would address that. But you have worded it very eloquently.

The PFAS section looks better, thank you!

Subject: FYR Letter

All,

I just wanted to let you all know that I've placed the latest version of the JBLM FYR Protectiveness Determination letter [HERE...3rd JBLM FYR Determination Letter_for review_ver 5](#), just in case you wanted to review, add suggestions, or comments while Kristine is up on the concurrence sheet.

You all have a tremendous amount of stuff on your plate before the end of the fiscal year, and I am *so very grateful* for the help you all have provided.

As my first FF FYR, it has been a good and tough learning experience...and I feel badly for any undue problems it/my time management has brought to the table.

Thank you!
